2 x Mackie Thump 12A 1300W Active PA Speakers and Stands

Description: <https://www.gear4music.com/PA-DJ-and-Lighting/Mackie-Thump-12A-Active-PA-Speaker/23CP>

User Manual: https://d1aeri3ty3izns.cloudfront.net/media/29/298966/download_298966.pdf

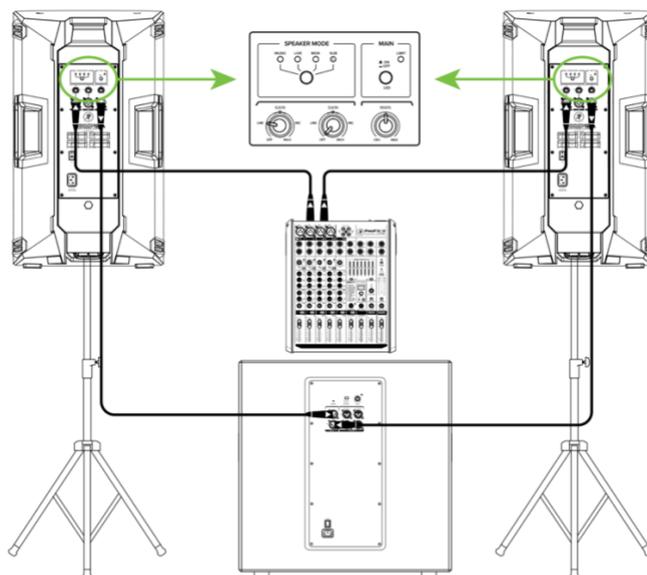

In this example, a ProFX8v2 mixer is connected directly to two Thump12A loudspeakers. It is the perfect setup for a small club. Simply connect the L/R outputs of the ProFX8v2 mixer to the CH1 input of each Thump12A loudspeaker. Don't forget to set the CH1 gains to 'Line' and the Speaker Modes to Music!

1 x Mackie Thump 18S 1200W Powered Subwoofer Speaker

Description: <https://www.gear4music.com/PA-DJ-and-Lighting/Mackie-Thump-18S-Powered-Subwoofer/ZPT>

User Manual: https://d1aeri3ty3izns.cloudfront.net/media/19/199816/download_199816.pdf

If you desire a little more boom, add a Thump18S subwoofer to the mix. Here, the L/R outputs of a ProFX8v2 mixer are connected directly to the CH1 inputs of each Thump12A loudspeaker. Then the Mix Out of each loudspeaker is connected to the channel A and B inputs of a single Thump18S subwoofer. Don't forget to set the CH1 gains to 'Line' and the Speaker Modes to Sub.

1 x SubZero 200W 10" Active Floor Monitor Speaker

Description: <https://www.gear4music.com/PA-DJ-and-Lighting/SubZero-200W-10-Active-Floor-Monitor/2IP4>

User Manual: https://d1aeri3ty3izns.cloudfront.net/media/50/500966/download_500966.pdf
